

Summer school content

MSC Summer Schools

The summer school must have within its programme

- Preparation for work experience (building on the work from the HEE funded national pilot led by Leeds Medical School), including how to maximise and reflect on the experience
- Engagement from a range of medical schools
- A simulated experience of what it is like to study medicine (including a range of teaching methods) not only to consider their choice of medical school but also aid their transition from sixth form study to university
- The values and behaviours of doctors and medical students
- Dedicated sessions that focus on the shortage specialties, especially general practice
- Confidence and social capital building activities (including meeting academics and medics)
- Opportunity for students to discuss their options and seek advice
- Overview of the range of medical careers available (including other healthcare and non-patient focused options)
- Application and admissions advice and support, including preparation for interviews and admissions tests.
- Social activities for the students to build a community and network amongst like-minded people
